

Millions of people have their
identity stolen every year.
Don't be one of them.

Now with Credit Monitoring!

Protecting Your Bottom Line with IDTheftDefenseSM

IDTheftDefenseSM is the most comprehensive identity protection and restoration product available. We monitor your TransUnion credit report, triggering an alert when your Personally Identifiable Information (PII) appears on a credit check – giving you a chance to review potentially fraudulent activity.

Continuous Credit Monitoring

We monitor your identity from every angle, not just your Social Insurance Number, credit cards and bank accounts. We check to see if the details connected to your identity are safe. If any change in your status occurs, you'll receive an alert on your member dashboard and via email. By watching your TransUnion report, IDTheftDefenseSM provides you with a view of your valuable credit standing.

Unlimited Service Guarantee

We don't give up until your identity is restored. If you become a victim of identity theft, our Identity Theft Specialists will do whatever it takes for as long as it takes to help recover and restore your identity to its pre-theft status.

Consultation When You Need It

You don't need to have an issue to consult with one of our Identity Theft Specialists. They are available to advise you on best practices to help keep your identity safe. We're here to help, no matter what.
